

FSS Ceramide 3

Code: FSS21500
INCI Name: Ceramide NP
CAS #: 100403-19-8
EINECS #: 309-560-3

Temperature Stability	Stable up to 80°C
pH Stability	3 - 7
Suggested Use Level	0.50 - 2.00%
Solubility	Oil Dispersible
Ionic Compatibility	Nonionic
Alcohol Compatibility	10% of FSS Ceramide 3 is compatible with up to 90% alcohol
Formulation Guidelines	Add to oil phase and heat to 70-80°C for complete incorporation. To achieve a clear oil solution, the oil phase should be heated sufficiently to completely melt/dissolve FSS Ceramide 3.
